Sharing news from your community

Happy Summer!

Message from HOA President, Mitchell Davenport

Welcome to the summer edition of the Shaw's Bounty newsletter, my first one in the role as HOA President. I'd like to start by thanking Ken Lambright who has handed over the title to me, for his stellar work in supporting the neighborhood during his 10 year term. As a community, we are in a great position, with a strong board for 2022 and I look forward to continuing to move Shaw's Bounty forward. It is wonderful to see so many new families moving in, and so many children playing and enjoying life! Our recent social event was a great testament to just what a fun neighborhood this is!

Spring Social Success

Our recent Shaws Bounty Social was a huge success with nearly 100 neighbors in attendance! The setting was perfect, on the HOA community land overlooking the pond...

Board Member and Chair of the Social Committee, John Pollock did an amazing job putting together the first neighborhood Spring event since Covid. We had a remarkable turn-out with 71 adults, 28 children and five babies attending! It was a wonderful time for neighbors to meet one another, chat and enjoy the activities, which included live music entertainment and a taco truck.

The kids had fun on the bouncy water slide, playing corn hole, eating pizza and getting ice cream from the ice cream truck. Big shout out to John's social committee members, Cheryl Parsons and Brandi Scott for their input. We've had wonderful feedback from everyone, with many neighbors saying they look forward to having a fall event. Watch this space for more news!

Firework Pet Safety

Look after your pets this firework season with the help of these gentle reminders...

July 4th is a time for celebration; grilling hotdogs & hamburgers, pool parties, having fun with friends and enjoying firework displays. But did you know that cats and dogs have acute hearing stronger than humans and often become terrified and disoriented from the loud noises of fireworks.

- ▶ If you are bringing your pet to a firework display, make sure you have them properly harnessed. Many dogs are known to run away from the sounds.
- ▶ If you go out and leave your pets alone at home, protect them by keeping them in a room without windows and put on music before you leave to help drown out the noises.
- ▶ Thunder shirts, CBD oil or anti-anxiety meds from a vet often help ease your dog's fear.

- ▶ Cats often hide under beds so make sure to check on them if you are not sure where they have escaped in the house.
- ▶ When in doubt, safeguard your pet from summer activities and thunderstorms and always make sure your pet's ID tag has up to date contact information should they run away.
